

SECURITY PROCEDURES

Security screening prior to boarding an aircraft is the final airport process before entering the respective departure gate for your flight. In order to expedite the Security Control process to the maximum extent, which will contribute to minimising your waiting time and avoiding unnecessary delays, you are kindly requested to adhere to the following guidelines:

1. Please be informed of the items and/or substances which you are not permitted to carry inside your cabin luggage during the flight. Detailed information about these items can be found in the relevant field "TRAVELLERS INFO – PROHIBITED ITEMS".
Please bear in mind that if during the security check such items are found inside your hand baggage, you will be requested to voluntarily dispose of them.
2. Please place your outer clothing (coat, jacket, cap, hat, scarf, foulard, handkerchief, etc.) in the designated baskets, so that these items are checked as separate hand luggage.
3. Please present to the security personnel your personal 1–litre transparent re-sealable plastic bag containing liquids, aerosols and gels in containers not exceeding 100 ml each.
4. Please present to the security personnel as separate hand luggage the sealed tamper evident bags containing liquids purchased at Athens International Airport or at another European Airport. Please bear in mind that the tamper evident bags must not bear any signs of possible tampering and the proof of purchase (receipt) must be clearly displayed.
5. Medicine, special dietary products and baby food / milk are exempt from the restrictions of prohibited items which are not permitted in hand luggage. However, please bear in mind that there is a possibility that you may be requested to prove their authenticity and the necessity for their use during the flight. Please also be advised that medical formulae or other medical aids such as inhalers for asthmatics, spays for pharyngitis (sore throats), homeopathic treatment in liquid form, insulin syringes for diabetics, etc., are permitted under the condition that you submit the relevant doctor's prescription issued in your name.
6. Please do not forget to remove from their cases and place them in the designated baskets as separate hand language the following items, thus contributing to both the quality and the speed of the security checks:
 - Laptops, notebooks, iPads, tablets
 - Cameras, mobile phones
 - Mobile electronic devices such as small TV–sets, radios, mixers, toasters, CD players, iPods, hair dryers, etc.)
 - Metallic items, coins, keys, cigarettes, lighters, sun glasses etc.
7. Please be reminded that in the case that you are legally carrying a personal weapon it must always be declared to your airline during the check-in process so that the loading procedures foreseen by law are followed.
