During December, the airport's passenger traffic reached 1.43 million, presenting an increase of 5.4%. The capacity reduction in specific domestic routes resulted in a 7.6% decline in the domestic sector, while the international market enjoyed a sharp increase of 12.9%.

Overall, in 2017, the Athens International Airport recorded an all-time high performance, with 21.74 million passengers, surpassing previous year traffic by 1.7 million (+8.6%). This outcome was mainly driven by the strong growth of the international market (+1.5 million or +12%), whereas the domestic market presented a slow rise of 2.4% due to capacity reduction in the winter periods.
